Bids will be evaluated on the basis of the criteria and information mentioned below under "Additional Requirements".

Due to the scope and implications of the Boost Pressure Measurement Device supply contract on the running of the Championship, the FIA intends to share the bids with the power unit manufacturers for their comments to the FIA. The FIA may also organise meetings where tenderers will be invited to present their offers and answer questions from the FIA and the power unit manufacturers. By submitting offers, tenderers acknowledge and agree to those conditions.

The FIA reserves the right at any time, without giving reasons therefore and at its sole discretion, to amend, modify or terminate this invitation to tender and the timeline below (including doing a further round of bids among all or part of the tenderers) and/or to issue a new invitation to tender. Moreover, the FIA reserves the right, without giving reasons therefore and at its sole discretion, not to select any tenderer and/or not to enter into a contract with the selected tenderer. PART 1 - GENERAL CONDITIONS

RECITALS

- (A) The FIA's authority in relation to international motor sport has been recognised since 1904 when national automobile clubs came together to establish the FIA to provide, amongst other things, an international forum to regulate motor sport internationally.
- (B) The FIA is the sole body governing international motor sport and is recognised by its members as the sole authority having the sporting power with the right to organise international FIA championships, including the CHAMPIONSHIP.
- (C) The FIA has an absolute obligation conferred on it by its members to safeguard its authority over all safety, sporting, technical and disciplinary matters relating to the CHAMPIONSHIP, as well as traditional values.
- (D) The FIA will publish the GOVERNING RULES annually.
- (E) The FIA has determined that the interests of the CHAMPIONSHIP require that a single supplier of the PRODUCT should be appointed for a limited term.
- (F) It is intended that the FIA and the PROVIDER will enter into this CONTRACT pursuant to which the PROVIDER will be appointed as the sole supplier of the PRODUCT to the CHAMPIONSHIP for the term set out herein.

1. APPOINTMENT AND SUPPLY

- 1.1 The FIA hereby appoints the PROVIDER to be the exclusive supplier of the PRODUCT to the COMPETITORS for the CHAMPIONSHIP and the PROVIDER hereby accepts this appointment and agrees to supply the PRODUCT to the COMPETITORS for the CHAMPIONSHIP in accordance with the terms of this CONTRACT and the terms of the SUPPLY AGREEMENTS.
- 1.2 Following from its appointment, the PROVIDER shall enter into a SUPPLY AGREEMENT with each COMPETITOR setting out the terms upon which the PRODUCT shall be supplied.
- 1.3 The PRODUCT that is supplied by the PROVIDER to the COMPETITORS shall be fit for purpose and compliant with APPLICABLE LAWS, the SPORTING REGULATIONS, the TECHNICAL REGULATIONS and the TECHNICAL SPECIFICATIONS.

- 2.5 If requested by the FIA, the PROVIDER shall supply a copy of each SUPPLY AGREEMENT in order to demonstrate that the PRINCIPLES OF SPORTING EQUALITY are maintained. With respect to the FIA, the PROVIDER hereby waives and confirms that it shall not assert or seek to rely on any confidentiality provision in any SUPPLY AGREEMENT or other agreement relevant to the supply of the PRODUCT to prevent the FIA from reviewing relevant agreements or carrying out its regulatory functions (including ensuring that the PRINCIPLES OF SPORTING EQUALITY are maintained).
- 2.6 The FIA may request amendments to a SUPPLY AGREEMENT if it considers that the SUPPLY AGREEMENT is not consistent or compatible with, or is otherwise contrary to, the PRINCIPLES OF SPORTING EQUALITY. For the avoidance of doubt, the PROVIDER's obligation to abide by the PRINCIPLES OF SPORTING EQUALITY shall not be limited or otherwise affected by the FIA's review of a SUPPLY AGREEMENT and/or a request for an amendment to be made.
- 2.7 In the event of uncertainty regarding whether any action taken or proposed to be taken by the PROVIDER may breach the PRINCIPLES OF SPORTING EQUALITY, the PROVIDER shall request guidance from the FIA, which shall make a determination in this regard. Where such a determination is made by the FIA, the PROVIDER's actions in complying with that determination shall be deemed to be in compliance with the PROVIDER's obligation in GENERAL CONDITION 2.1 to treat all COMPETITORS in accordance with the PRINCIPLES OF SPORTING EQUALITY.

3. LIABILITY

- 3.3 Notwithstanding GENERAL CONDITIONS 3.1 and 3.2 above, the PROVIDER shall produce an attestation certifying that an insurance policy (including but not limited to

public liability, product liability, professional indemnity and employer's liability) has been contracted in its name with a top-ranking international insurance company for covering its liability as PROVIDER under this CONTRACT and the SUPPLY AGREEMENTS.

- 4.1 The PROVIDER represents and warrants that it has full power and authority to enter into and fully perform its obligations under the CONTRACT and the provisions of the CONTRACT, when executed, will constitute valid and binding obligations on the PROVIDER in accordance with its terms. APPENDIX II

Commitment to Sustainability

As part of its commitment to sustainability, the FIA encourages responsible practices with respect to effective environmental management.

As a minimum requirement, the tenderer must comply with any legal laws and requirements related to environmental and social responsibility in force in countries where the organisation operates and be able to provide evidence of compliance, if requested. Tenders include sustainability selection criteria that reflect practices and solutions that go beyond the minimum requirements. They aim to value the proposal of suppliers who provide the most sustainable solutions. We focus our requirements for suppliers in four priority areas. Some of these apply directly to products, others to production methods and overall organisation’s policy and operations. The tenderer’s offer and organisation will be assessed according to the following criteria:

PRIORITY AREA	CLARIFICATION	EVIDENCE OF COMPLIANCE	COMMENTS
CRITERIA APPLICABLE TO THE ORGANISATION			
a) Sustainability in the organisation			
	Sustainable development is integrated into the tenderer organisation’s system: certified environmental management e.g. ISO 14001 (efficient use of resources, reduction of waste, transport and travel policy, etc.), environmental/ESG policy, sustainable procurement policy, carbon footprint calculation, carbon neutrality commitment, reduction targets, etc.		
b) Social responsibility.			
The tenderer ensures that its products/services are delivered ethically. Notably, the tenderer guarantees the respect of:	Working conditions and social protection		
	Health and safety of employees, consumers, and users		
	Ethics and anticorruption		
	Equal opportunities and diversity		
	Social due diligence in the supply chain: human rights, prevention of discrimination, etc.		
CRITERIA APPLICABLE TO THE PRODUCTS - SUBJECT MATTER OF THE TENDER			
c) Environmental and carbon footprint.			
The tenderer is aware of the environmental impact generated by the products	Local supply of raw materials and transport by sustainable means		
	Carbon emissions calculation and reduction plan, carbon compensation scheme for residual emissions		

PRIORITY AREA	CLARIFICATION	EVIDENCE OF COMPLIANCE	COMMENTS
and adopts solutions to minimise impact:	Sustainable energy sourcing and reduction of energy consumption		
	Measures to reduce negative impact on the natural environment throughout the product/service lifecycle, e.g., prevention of pollution, limitation of use of synthetic materials, waste reduction and recycling, etc.		
	Implementation of traceability of materials across the supply chain		
d) Circular Economy			
The tenderer takes into account the principles of circular economy in every stage of products/goods lifecycle:			
Design and manufacturing:	Integration of renewable, recycled, or reused materials and provision of certificates/proofs (recycled carbon fibre, linen, etc.)		
	Integration of materials that are recyclable / suitable for reuse or other material recovery		
	Design for increased lifespan & recycling		
	Optimisation of quantities and elimination of surplus materials		
Use	Solutions to increase duration of use whilst maintaining the sporting performance		
Distribution	Propose initiatives to reduce the CO ₂ emissions related to logistics: <ul style="list-style-type: none"> • Reduction in freight mass and/or volume • Prioritising sea-freight over airfreight • Reduction in number of people travelling 		

PRIORITY AREA	CLARIFICATION	EVIDENCE OF COMPLIANCE	COMMENTS
End of life:	Propose sustainable end-of-life solutions (take back scheme, recycling/reuse options, return product to the recycling plant by sea freight or viable options for suitable treatment by recovery facilities in the country of product use, to reduce transport; if possible eliminate energy recovery)		

The tenderer is required to describe and provide evidence of how these criteria are met within its organisation and within the value chain.

Evidence of compliance includes but is not limited to, certificates, accreditations and labels, business policies and related documents, or any other evidence that attests that the tenderer's commitments are accurate. The FIA reserves the right to request further information or evidence.

APPENDIX V

FIA Standards of Conduct for Suppliers

ARTICLE 1 – GENERAL

1.1 The activities of the Fédération Internationale de l'Automobile ("**FIA**") are to be conducted in compliance with all applicable laws, statutes, regulations, ordinances, orders, decrees, codes of practice, guidelines, directions, relevant industry and ethical standards and any other applicable rules of the jurisdictions where the FIA and/or its suppliers operate ("**Applicable Law**").

1.2 The FIA further acts in a socially responsible manner, and has issued these standards of conduct for suppliers ("**Standards**") to set out its high expectations in the areas of health and safety, human rights and employment practices, environmental management and sustainability, business integrity and anti-bribery policies, and related fields.

1.3 These Standards apply to all individuals, companies, consultants, vendors, contractors, agents and any other entities that provide services and/or supply material or other products to the FIA ("**Suppliers**"), as well as to their own employees, suppliers, sub-contractors, agents and related entities.

1.4 Suppliers must comply with the Applicable Law and these Standards. They guarantee similar compliance for the work performed by their employees, suppliers, sub-contractors, agents and related entities. When the Applicable Law and these Standards cover the same subject matter, the ones setting the highest standards apply. When these Standards contradict the Applicable Law, the Applicable Law prevails.

1.5 As part of these Standards, the FIA further expects its Suppliers to abide by the generally recognised principles inspired by the international conventions and instruments of the United Nations (UN) (in particular the UN Guiding Principles on Business and Human Rights and the UN Global Compact), the International Labour Organization (ILO), the Organisation for Economic Co-operation and Development (OECD) (in particular the OECD Guidelines for Multinational Enterprises), as well as any similar protection norms.

1.6 Suppliers shall periodically review their practices, conduct periodic self-evaluations, due diligence and establish management systems for sustainable practices to ensure that they, as well as their employees, suppliers, sub-contractors, agents and related entities, are complying with the Applicable Law and these Standards. These Standards supersede any previous standards for Suppliers issued by the FIA.

1.7 The FIA may conduct or to have conducted on its behalf inspections, audits and/or due diligence checks of facilities and business practices to monitor Suppliers' compliance with the Applicable Law and these Standards, and fulfilment by Suppliers and their employees, suppliers, sub-contractors, agents and related entities of their undertakings. Suppliers shall provide any relevant information and documents, and give access to the representatives of the FIA to verify such compliance. Suppliers shall undertake to improve or correct any inadequacy. Suppliers shall keep sufficient authentic and accurate records to prove compliance. Failure to cooperate or to provide the information requested shall constitute a breach of these Standards.

1.8 The FIA may terminate or suspend its relationship with any Supplier, as well as resort to any other remedy available, when that Supplier does not comply with the Applicable Law and/or these Standards.

1.9 These Standards may be amended by the FIA from time to time. Their enforcement and interpretation rest solely with the FIA and do not confer or create any rights in favour of any party other than the FIA.

1.10 Should Suppliers need additional information or guidance on these Standards, or wish to report a violation, whether actual or potential, they shall contact the FIA Ethics Committee and/or the FIA Compliance Officer¹.

ARTICLE 2 - HEALTH AND SAFETY

2.1 Suppliers must provide their personnel with safe and healthy working conditions, in order to avoid accidents or injuries which could be caused by, be related to or derive from their work, including during the use of equipment or during work-related travel. Suppliers must implement proceedings and training programs to detect, avoid and minimise any risk to health and safety of the personnel. Suppliers' facilities are to be constructed and maintained in accordance with the Applicable Law and the relevant industry standards.

2.2 Suppliers working with the FIA or onsite at the FIA's premises or at any other location must work in a way that assures their own safety and the safety of others in compliance with the Applicable Law, including the applicable FIA and governmental, environmental, health and safety requirements. Any incidents that may impact the FIA must be reported promptly.

ARTICLE 3 - HUMAN RIGHTS AND EMPLOYMENT PRACTICES

Dignity and Fundamental Rights

3.5 The FIA does not permit intimidation or hostility and will not tolerate any behaviour from Suppliers that might harass, disrupt or interfere with another person's ability to work.

Child Labour

3.6 Suppliers represent and warrant that they, as well as their employees, suppliers, sub-contractors, agents and related entities, comply with the Applicable Law and do not resort to any form of child labour or other exploitation of children which are not allowed under the applicable labor and employment laws and regulations.

¹ ethics-committee@fia.com

Forced, Bonded or Indentured Prison Labour, Slavery and Human Trafficking

3.9 Suppliers must not manufacture products or render services (or incorporate any materials therein that have been manufactured) in violation of laws governing workers' human rights, including human trafficking and slavery.

3.10 Suppliers confirm not using, in providing goods and services, involuntary or forced labour, whether indentured, bonded, prison labour or otherwise. Suppliers shall also comply with the applicable rules and standards pertaining to working hours, subject to any exemptions relevant to events and competitions in the field of automotive and motor sports under the applicable laws and regulations.

Drugs

3.15 Suppliers must not possess, use or sell illegal drugs on the FIA's premises and/or at the FIA events or perform their work under the influence of alcohol, illegal drugs and any performance-enhancing substances. They shall make sure that the same applies to their employees, suppliers, sub-contractors, agents and related entities. 4.3 Suppliers shall endeavour to protect the environment on the occasion of any events they organise and/or within their business operations. They shall take reasonable endeavours that their operations are consistent with the generally accepted standards for environmental protection in their industries, and that on an ongoing basis, they join the FIA in its objective continuously improve its sustainability and environmental focus.

ARTICLE 5 - BUSINESS INTEGRITY

5.1 In addition to complying with the Applicable Law, Suppliers conduct business responsibly, with integrity, honesty and transparency, and adhere to the following standards of business integrity:

Corruption and Bribery

5.2 Suppliers are prohibited from engaging directly or indirectly in any form of corrupt practices and/or bribery, as well as any related illegal or unethical practices.

5.3 Corrupt practice means any form of misuse of power for any form of gain. Acts of corruption are usually intended to influence an individual in the performance of his work to act dishonestly and/or improperly.

5.4 A bribe is an inducement or reward or any form of benefit offered, promised, given or authorised, directly or indirectly: (i) to improperly influence anyone, or (ii) to reward anyone for the performance of any function or activity in order to secure or gain any commercial, contractual, regulatory or personal advantage. A bribe can take many forms, for example: (i) a direct or indirect promise or offer of something of value; (ii) the offer or receipt of a kickback, fee, reward or other form of benefit; (iii) the giving of aid or donations; (iv) the use of voting rights designed to exert improper influence.

5.5 In particular, Suppliers are prohibited from directly or indirectly paying anything of value to a government or other public official in order to:

- Obtain or retain business or improperly influence the act or decision of any government official, political party, candidate for political office, or official of a public international organization;
- Gain an improper advantage; or
- Illegally influence the action of any individual, customer, company, or company representative.

5.6 Suppliers are required to keep accurate and transparent records that reflect actual transactions and payments.

5.8 The following situations are always inappropriate and are expressly prohibited in relation to FIA employees, representatives, agents, appointees, consultants, volunteers, officers, commission members, sporting officials, etc., and third parties acting on behalf of the FIA:

- Offering any gift, entertainment, preferred treatment and/or any other advantage while involved in a current purchasing or contracting decision process (e.g. invitation to tender, call

The value of a gift should not exceed, in any event, an amount of CHF 100.

5.10 The FIA appreciates that the practice of giving business gifts varies between countries and regions and what may be normal and acceptable in one region may not be in another. The test to be applied is whether in all the circumstances the gift is reasonable and justifiable. The intention behind the gift should always be considered.

5.11 The hospitality shown to Suppliers and the persons accompanying them shall not exceed the standards prevailing in the host country or in the event that they attend. The intention behind the hospitality should always be considered.

5.12 In case of doubt or queries concerning the above requirements, in particular the value of a gift or nature of the hospitality, the FIA Ethics Committee and/or the FIA Compliance Officer should be consulted before acceptance.

ARTICLE 6 - CONFLICTS OF INTEREST

6.1 Suppliers may not perform their duties in situations involving a perceived, apparent, potential and/or actual conflict of interest, and they must endeavour to avoid creating any such situations.

9.3 Suppliers must comply with all norms against insider trading under the Applicable Law and endeavour to take all appropriate measures to avoid that their knowledge of, or access to, sensitive information be used for favouring insider trading.

12.1 Suppliers must comply with the EU General Data Protection Regulation 2016/679 when handling personal data ("Personal Data") provided by the FIA.

12.2 Suppliers receiving Personal Data from the FIA will adopt, maintain and follow written and comprehensive security practices that are sufficient to safeguard FIA's Personal Data from any (a) unauthorized disclosure, access, use or modification; (b) misappropriation, theft, destruction, or loss; or (c) inability to account for such Personal Data; and treat all Personal Data as strictly confidential.

12.3 Suppliers will only process the Personal Data, in a Member State of the European Union or in a State party to the agreement on the European Economic Area ("EEA") or in Switzerland. A transfer of

the Personal Data to a third country other than the aforementioned requires prior informed consent given by the FIA.

12.4 Suppliers shall not, by any means, communicate the Personal Data to or put the Personal Data at the disposal of third parties without the FIA's prior written consent thereto unless it is required to do so by mandatory law. Suppliers shall notify the FIA if Personal Data is to be provided to a third party as a result of mandatory law unless the law prevents such notification taking place.

12.5 Suppliers shall notify the FIA Ethics Committee and/or the FIA Compliance Officer of any breach in the processing of the Personal Data and shall comply with any reasonable request for information to allow the FIA to respond to and to take suitable further steps in respect of the incident.

ARTICLE 13 - CONDUCT TOWARDS GOVERNMENTS AND PRIVATE ORGANISATIONS

13.1 Suppliers shall endeavour to maintain harmonious relations with national authorities, in accordance with the principle of universality and of political neutrality of the FIA.
